AMENDED VERSION OF THE CLAIMS

SIR:

Set forth below is the amended version of claims in the above-referenced matter.

1. (Twice Amended) A method for making financial analysis output having a second computed market-based valuation for property, the financial analysis output being made by steps including:

controlling a digital electrical computer processor to manipulate electrical signals in generating a market-based valuation for the property, wherein the property is from a group consisting of a tax-exempt security and a portfolio of tax-exempt securities, the market-based
